

# IMPROVE

Efficiency • Throughput • Revenue

TransCore's line of ruggedized RFID readers and transponders were designed to withstand tough environments, making them an ideal solution for a maritime terminal operation.

Yard Entrance/Exit

OCR Portals

RFID Antennas

RFID Readers

TOS

Tagging yard equipment with a rugged, reliable, beam-powered (no battery) transponder enables accurate, near-real-time data to be sent to the terminal operating system (TOS), providing the timely information needed to maximize operational efficiency, streamline throughput, increase revenue, and improve customer satisfaction.
