TransCore is proud to be part of an industry that is collaboratively solving the world's congestion problems. We consistently push the technology boundaries to meet our customer's specific requirements. This shared approach results in the ability to provide meaningful, beneficial, and value-added products and services.

TagTeller® Kiosk

TagTeller is an automated transponder vending machine.

Designed for mobile payment systems like electronic toll collection – this kiosk is ideal for placement in high volume point-of-sale locations.

This 24/7 customer service kiosk dispenses toll tags and provides customers with automated account management functions.

The TagTeller kiosk is a self-service unit that accepts credit cards, debit cards, or cash – and gives your customers the ability to:

- ▶ Purchase and receive a toll tag
- ▶ Activate their toll tag
- ▶ Add funds to an existing account
- ▶ Add additional toll tags to an existing account
- ▶ Pay violations
- ▶ Manage their existing account
- ▶ Enroll in airport parking or other toll services

The TagTeller kiosk is a low-cost way to improve your customer services while significantly increasing the penetration rate in your system. TagTeller's convenient 24/7 access capability is a low-cost way to offer multiple points of sales in high volume areas. The kiosk can be customized to target specific audiences that will significantly increase your system's penetration rates.

Windshield Sticker Tag

Low cost, battery-free sticker tags can also be customized and sold through the TagTeller kiosk for increasing your system's penetration rates.
